Rotterdam

Den Helder

Eemshaven

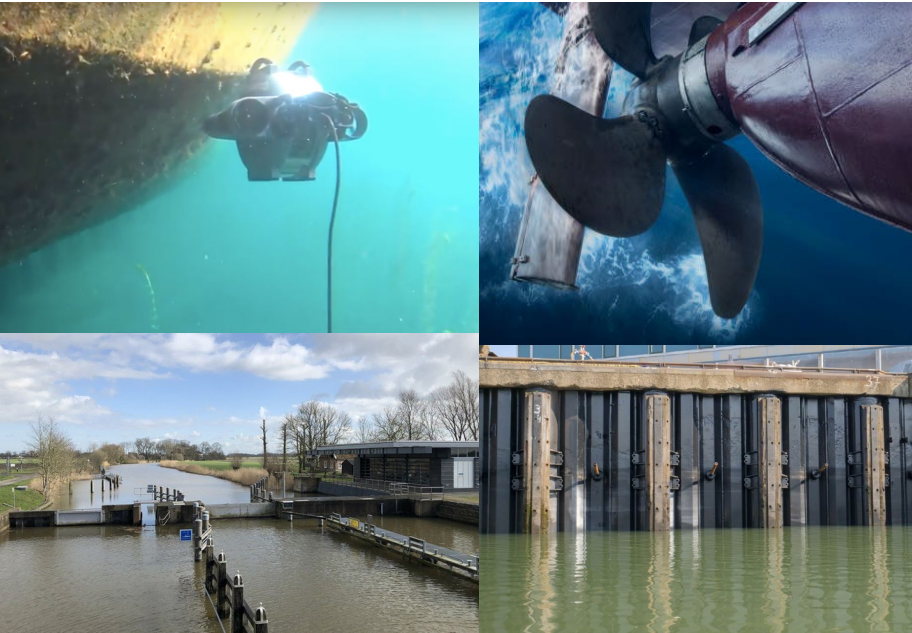

VISUAL - VIDEO - PHOTO - SONAR

- Inspection of wind turbine foundations, production platforms and substations subsea constructions, FPSO hull and turret, and subsea installation for corrosion, coating damages and marine growth.
- Cathodic Protection measurements and Ultrasonic metal thickness measurements.
- Surveying the seabed around production platforms (scouring & debris inspection)
- Surveying of cables, pipelines and trenches (cable & pipeline laying monitoring, trench inspection, backfilling inspection).
- HP waterjet cleaning, support of underwater repair-, maintenance-, and construction & removal activities.

UNDERWATER OPERATIONS

PORT UNDERWATER SERVICES

DroneQ Robotics

Rotterdam Den Helder Eemshaven

VISUAL - VIDEO - PHOTO - SONAR

- Ship hull inspections, in-and outlets, screws and rudders, Cathodic Protection, Ultrasonic Thickness, ballast tanks, water tanks, pipelines, valve flanges.
- Quays, sheet piles, bridge and dock pillars and other constructions.
- Industrial plant inspections such as cooling water inlets, pipelines and valves, water tanks.
- Locks, dams and dikes, breakwaters, pumping stations, water purification installations and other water management installations.
- Water sampling.
- HP waterjet cleaning, support of underwater repair-, maintenance-, and construction activities.

AERIAL SERVICES

DroneQ Robotics

The Netherlands

info@droneq.nl

www.droneq.nl

Rotterdam

Den Helder

Eemshaven

VISUAL - VIDEO - PHOTO

- Industrial inspections of industry, pipeline surveys, water management installations, cell towers, et cetera
- Inspections of wind turbines and solar parks
- Surveys of nature reserves and wildlife management
- Logistic support: long distance cargo drone delivery
- Drone Security: security surveillance of industrial areas and other objects
- Incident Response: areal support with calamities and Search & Rescue activities
- Support of maintenance and construction work

OFFSHORE AERIAL SERVICES

DroneQ Robotics

The Netherlands
info@droneq.nl
www.droneq.nl

Rotterdam Den Helder Eemshaven

VISUAL - VIDEO - PHOTO

- Logistic support: long distance cargo drone delivery for Offshore Energy
- Drone Inspection of wind turbines, production platforms and other offshore installations
- Drone Security: surveillance and monitoring of Offshore Energy wind parks and production platform areas
- Environmental Monitoring
- Drone Gas Detection
- Disaster & Incident Response

PORT AERIAL SERVICES

DroneQ Robotics

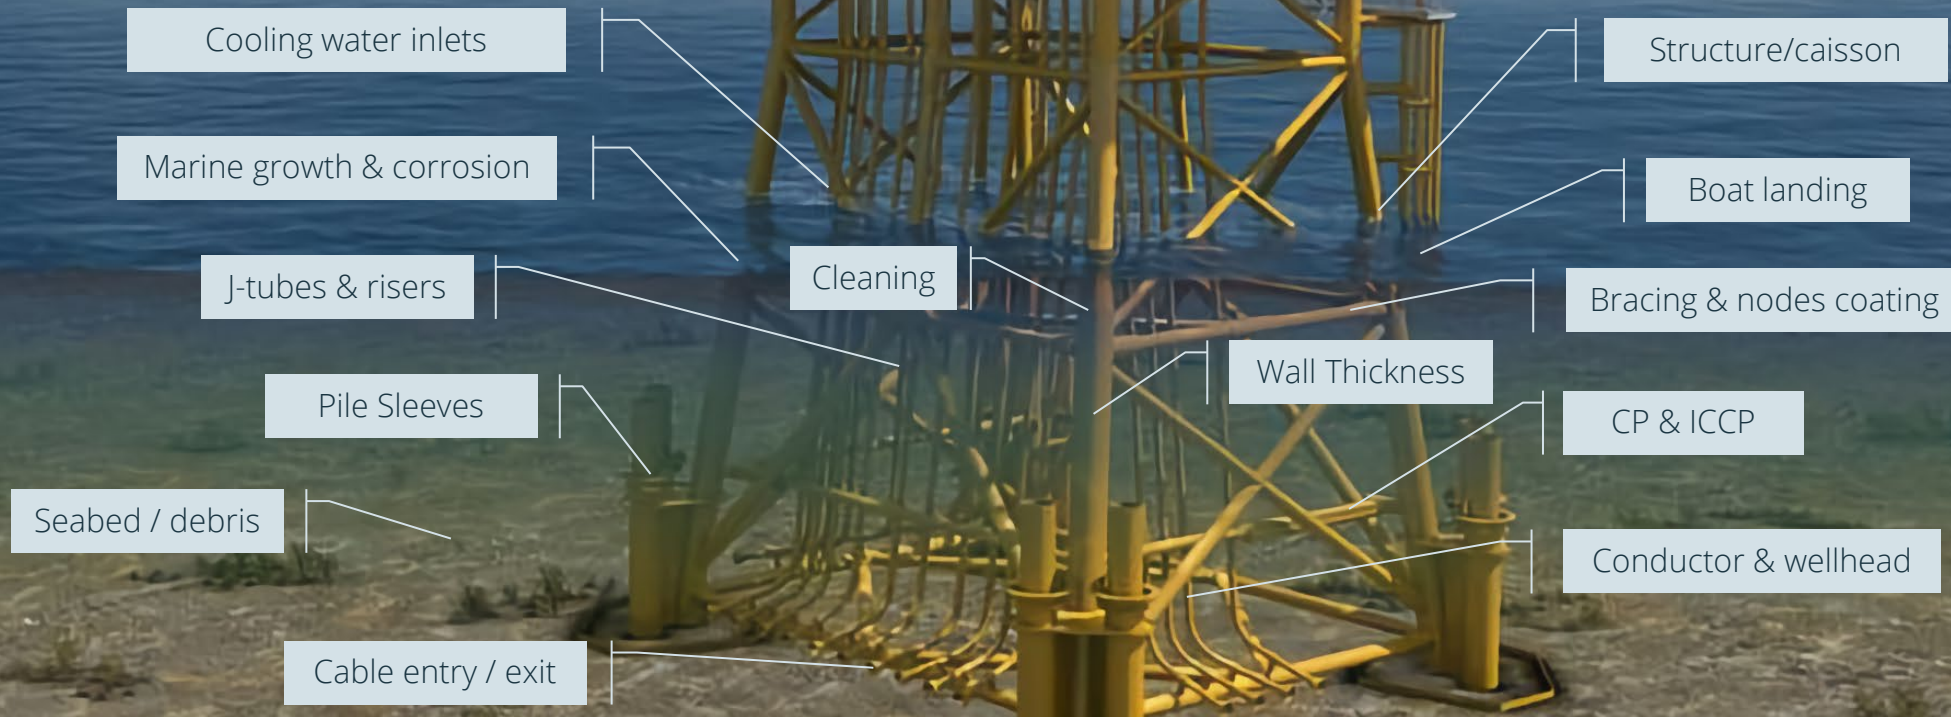

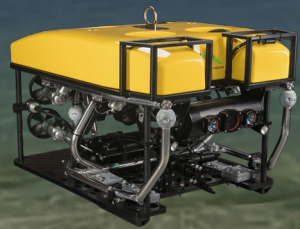

The Netherlands
info@droneq.nl
www.droneq.nl

Rotterdam Den Helder Eemshaven

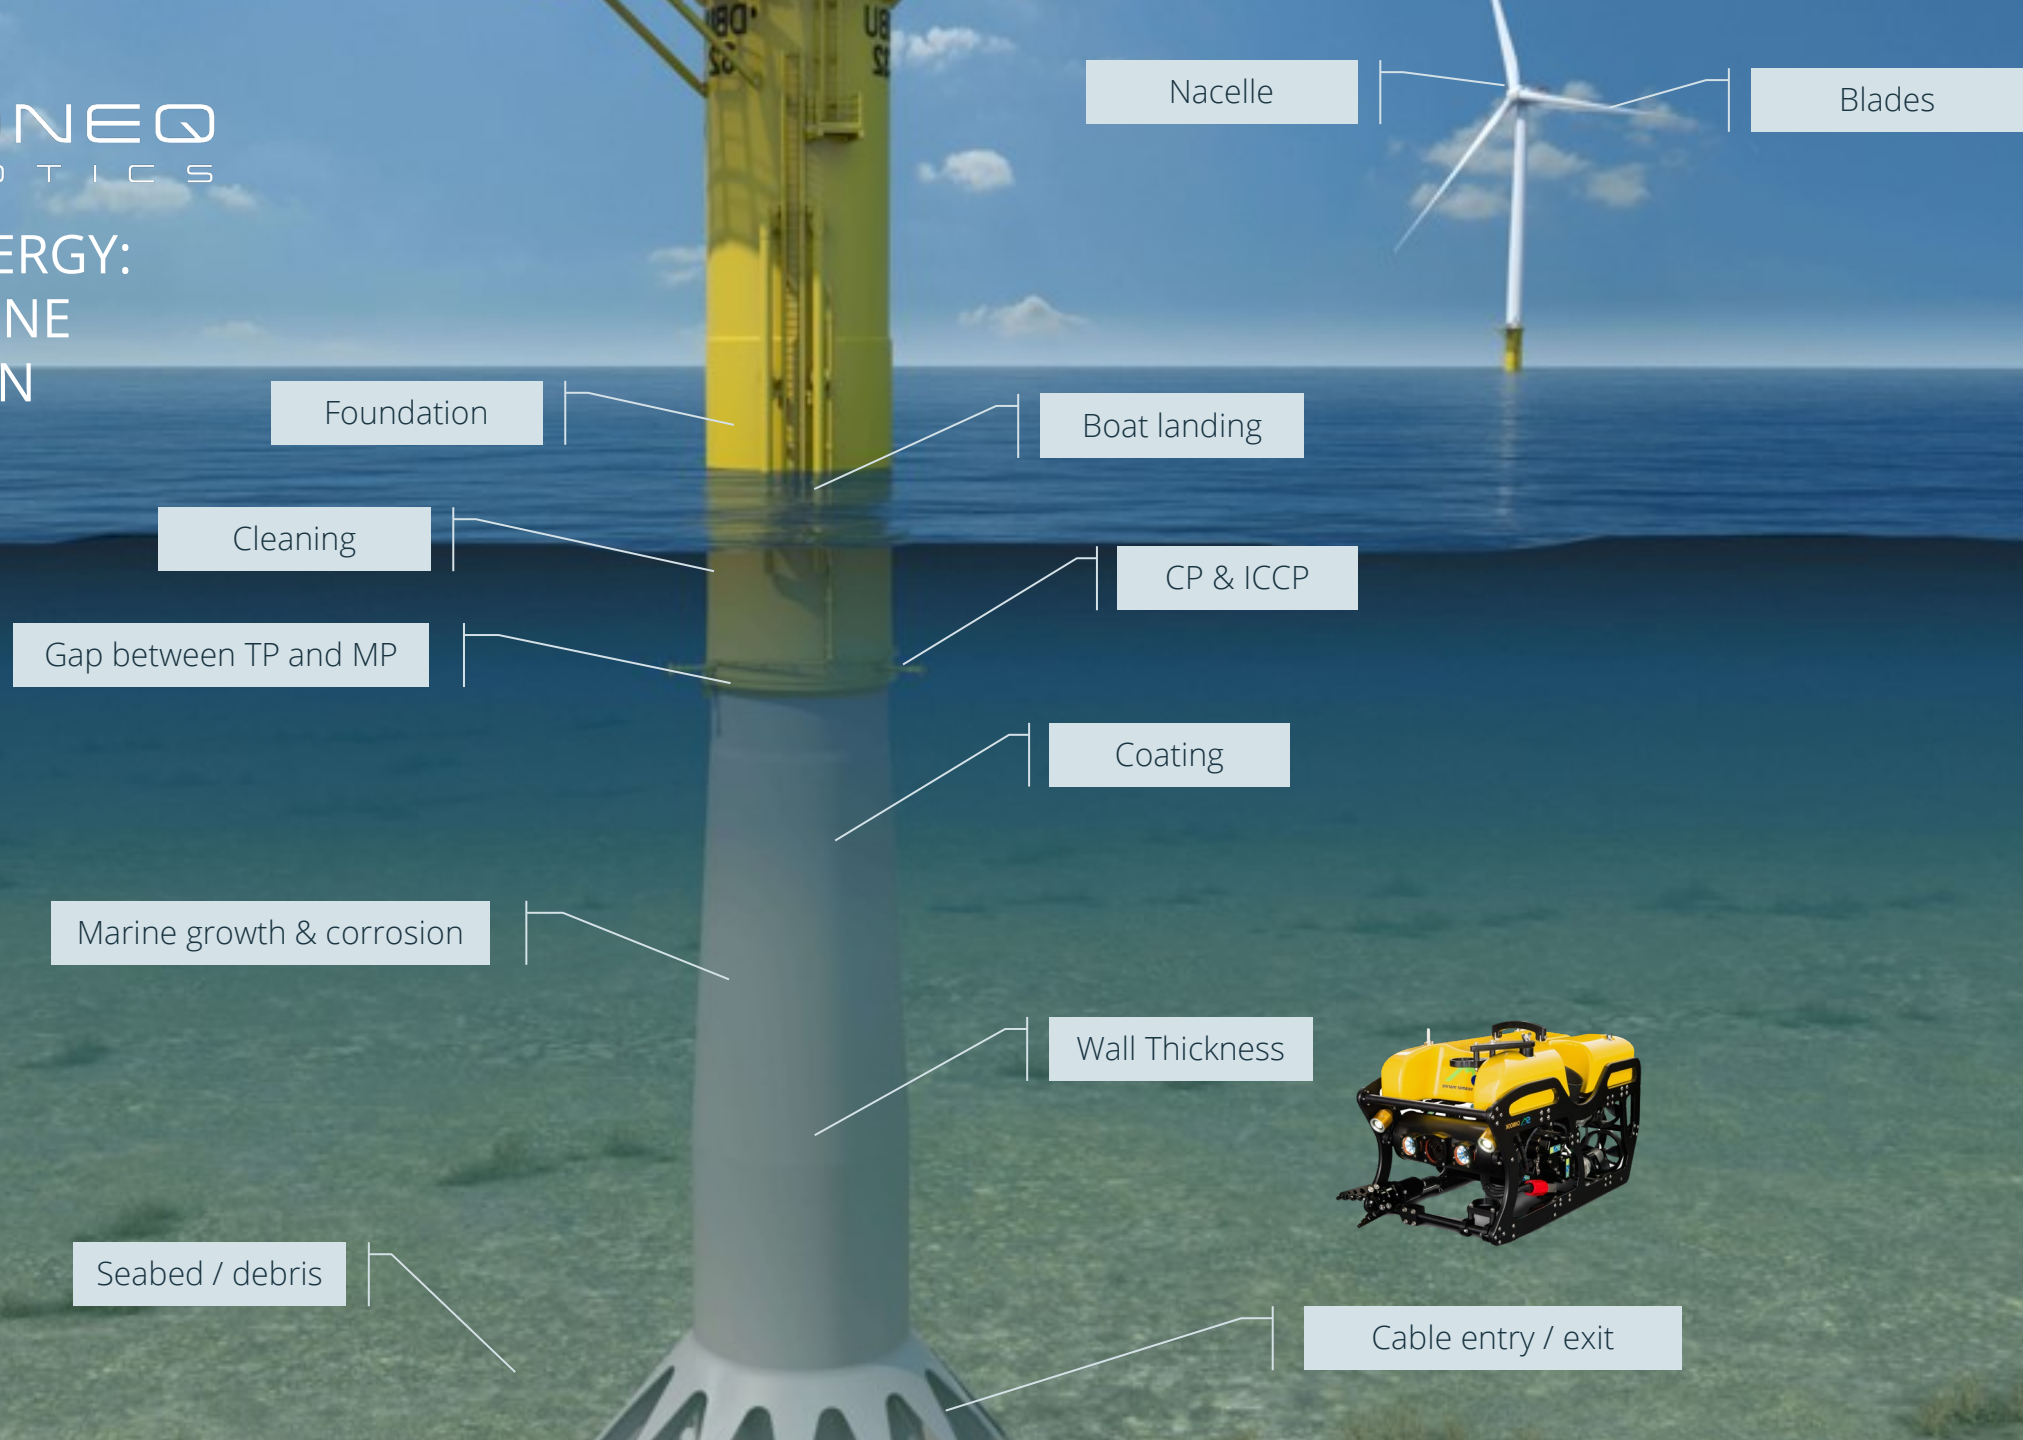

VISUAL - VIDEO - PHOTO

- Drone inspection of ships and other vessels
- Inspection of quays, bridges, industrial plants, port- and industrial areas and other constructions
- Logistic support: long distance cargo drone delivery in port areas and at sea
- Drone Security: security surveillance of port- and industrial areas and other objects
- Incident Response: areal support with calamities and Search & Rescue activities
- Support of maintenance and construction work
